AMENDMENT

Please make the following amendments to the above-identified application.

In the Sequence Listing:

Please replace the Sequence Listing with pages 1-229 comprising the Sequence Listing enclosed herein.

Remarks

The application as filed on October 19, 2001 contained a Sequence Listing having pages 1-268. A Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures dated August 21, 2002, indicated the content of the Sequence Listing did not comply with 37 CFR §§ 1.821(e). The enclosed pages 1-229 contain the printed Sequence Listing. A computer readable form (CRF) is also enclosed. No new matter has been added.

Attached hereto is a marked-up version of the changes made to the specification by the current amendment. The attached page is captioned "VERSION WITH MARKINGS TO SHOW CHANGES MADE."

Applicant believes all of the claims presently before the Examiner patentably define the invention over the prior art and are otherwise in condition for ready allowance. Applicant respectfully requests early notification of the same.

Respectfully submitted,

John A. Harrelson, Jr.
